

Walraven Adjustable Support Bracket

(H1242)

support bracket fastener for high adjustable rail installation

Features & benefits

- height adjustment range 135mm to 200mm also in installed state (left/right thread)
- suitable for all Walraven RapidStrut® rails (advised to use open side down for flexibility to meet the holes)
- use up to class 1-2 according to Eurocode 5 (indoor and covered outdoor area without weather influences)
- material: metal parts made of steel S235JR; protection cover made of plastic, grey
- zinc plated (Zn-Fe zinc / iron coating)
- For a detailed calculation and for support how to spread the load please contact Walraven Technical Support.
- In cases where a foot is used in roof applications, the installer is obliged to verify maximum load capacity of roof before installation.
