

Walraven W5000 Cushion Clamp

(H32210)

to be used for plastic pipe applications

Features & benefits

- the new alternative to the Cushion Clamp
- with removable spacer washers, making the clamp suitable for either sliding or anchoring
- one-piece design - no loose parts
- easier, faster, safer - installs with one hand
- 3-way screw head - Phillips, flat and hex
- W Series Clamps are boxed for easy handling - no more bags
- material: steel 1.0242
- surface treatment: high grade Zn-Mg based coating (600 hours salt spray)
- green EPDM rubber lining will prevent plasticiser migration
- noise/vibration insulating lining according DIN EN ISO 3822-1
- age resistant lining
- UL 1565 Listed
- 2016-SG-Bauakustik-1647-001-16
- 2016-TR151002-V5
