

Walraven Chemical Anchor WVSF200

(L0390)

high performance chemical anchoring system for cracked concrete and rebar connections

Features & benefits

- reduced edge and anchor spacing distances
- always correct mixing ratio thanks to the static mixer nozzle
- approved for use with rebars as anchors in non-cracked concrete
- cartridge may be used up over several times (each installation after a break requires new mixing nozzle)
- ETA Option 1 approval for cracked and non-cracked concrete
- A+ VOC emissions class
- ETA TR023 for post-installed rebar connections
- seismic performance category C1 for design of anchorages under seismic action
- tested according to LEED 2009 EQ c4.1, SCAQMD rule 1168 (2005)
- WRAS Material Approval for contact with potable water
- for loads and more information, refer to the product data sheet and/or the ETA reports
- substrate type: cracked concrete, non-cracked concrete
