

Walraven Yeti® 130 Cable Tray Set (BUP1000)

(10454)

for installation of cable runs on roofs

Features & benefits

- complete set for cable run installations on the roof
- flexible and cost-effective solution
- also possible to use for pipes or small air duct channels
- with non-slip anti-vibration mat
- predefined load capacity: calculation not necessary
- mouldings made of WPC, a composite of recycled plastic and wood fibre
- plastic components made from 100% recycled material
- resistant to UV and chemical influences
- product is part of the Walraven UltraProtect® 1000 system
- suitable for in- and outdoor applications
- stands min. 1,000 hours salt spray test (max. 5% red rust) according to ISO 9227
- sound reduction
- UV-resistance according to EN ISO 16474-3:2014-02 - certified by ITB
- The maximum recommended loads are calculated without accounting for wind and snow actions, which can vary significantly depending on local conditions. To ensure safety under typical circumstances, a global safety factor of 2 is applied.
- Before mounting, the roof load capacity has to be confirmed by a structural engineer. If changes to the mounting parameters is necessary then please contact Walraven Technical Department
