

Walraven Expansion Device 1-N

(E1022)

fixing with sliding assemblies

Features & benefits

- single bracket for accommodation of pipe thermal expansion or contraction
- fix directly on the building structure or in combination with rail systems
- suitable for ceiling mounting (suspended) and floor mounting (standing mounted)
- a variety of connection possibilities, can be combined with all pipe clamps
- friction coefficient $\mu = 0.18$; Sliding friction coefficient $\mu = 0.14$
- material: metal parts made of steel 1.0332; plastic parts made of PA (polyamide)
- zinc plated
- temperature resistance up to $+120\text{ }^{\circ}\text{C}$
- max. allowed load: standing = $F_{a,z}$; suspended = $F_{a,z} \cdot 2$
- single version not suitable for pipes $\geq \text{DN } 200$
