

Walraven Rapidstrut® channel (pg) Low Emission (LE)

(H0420)

for medium weight fixing applications

- Features & benefits**
- A sustainable steel production process leads to significant carbon emission reductions
 - Steel material is manufactured using recycled steel and fossil-free energy
 - Same strength, performance and installation characteristics as Walraven RapidStrut® channel (pg)
 - Up to 59% lower Cradle-to-Gate CO₂ emissions compared to standard Walraven RapidStrut®
 - Supports BREEAM and LEED sustainability objectives
 - pre-galvanized
 - Channel stamped in accordance with BS6946:1988
