

Tangit M 3000 Expansion Resin

(Y1010)

expansion resin

Features & benefits

- 2 component expansion resin
- for a quick sealing of gaps round any type of pipe for eg. gas (in heating rooms ≥ 130 kw), (drainage) water and electrocables
- thermal chargeable (650 °C, 30 min., pressure 0.1 bar, medium: air)
- water proof in combinaton with Tangit Sealing hose M4082 (pressure 1 bar)
- gastight (pressure 3 bar)
- does not shrink
- tensile strength 30 kN
- resistant to torsion (twisting moment 240 Nm)
- resistant against ageing and rotting
- not biodegradable
- resistant to oil, water and solvents and all common building materials and plastics
- can be cut after 5 minutes
- tested according DVGW-VP 601 (DE)
- incl. 6 mixer nozzles, extension nozzle and masking tape
- packaging: cartridge 300 m
