

Walraven Rubberfoot Support System (Aluminium Rail)

(E2015)

Features & benefits

- for supporting small pipework systems, ductwork runs and cable trays
- to support climate installations, walkways on flat roofs, etc.
- does not penetrate the waterproof membrane (at PVC roofs a separating layer must be installed to protect against plasticizer migration - see Walraven BIS Yeti® Triplex Separation Layer)
- material: vulcanized rubber, black; Rail made from aluminium
- For a detailed calculation and for support how to spread the load please contact Walraven Technical Support.
- In cases where a foot is used in roof applications, the installer is obliged to verify maximum load capacity of roof before installation.
